

Business in Wales highlights DJM corporate deal

Business in Wales article highlights a recent transaction conducted by Douglas-Jones Mercer's corporate team.

The transaction saw Irpco Limited a company of process control instrumentation engineers being acquired by the Rototherm group, a leading UK manufacturer of instrumentation for measuring temperature, pressure, level, density and flow.

Sheraz Akram of DJM who acted on the transaction commented "this transaction is strategically important for both Irpco and Rototherm and will act as a catalyst for the rapid growth of the business in the future."

Paul Williams commented "We would like to take this opportunity to say thank you to Sheraz Akram of DJM for his assistance in the sale of IRPCO Ltd. The process from start to finish was handled with competence and efficiency and whenever we had a query there was always someone at hand to answer it and to guide us in the right direction.

At such a stressful time, Sheraz was our rock and always allayed our concerns and put our minds at ease. In 2010 a decision was made to move our business requirements to DJM after 23 years with our previous solicitor. Our only regret is that we didn't make the move much sooner".

The below press cutting was published in the Western Mail on 23rd May 2013
